

Rowhill School

~ Curriculum and Personal Development Entitlement ~

All pupils have access to a broad, balanced, relevant curriculum, comprising a fully differentiated "National Curriculum" plus a "wider curriculum offer" in line with individual need.

The "wider curriculum offer" provides additional practical learning opportunities, which adds breadth to the curriculum and particularly emphasises social-emotional, vocational and life skills development.

A flexible approach to curriculum planning alters its balance depending on the changing needs of the child at different times and therefore allows a greater emphasis on: -

- specialised support;
- inclusion activities;
- independence, vocational and or, work related activities.

All pupils are supported by a strong pastoral system, which enables them to develop emotionally and socially as they progress through the school. Pupils also experience a wide range of challenging and enrichment activities that underpin their emerging sense of achievement and self-esteem. This coupled with an extremely strong and positive ethos promotes an "I can" belief throughout the school.

Key Stage 4 ▶▶▶ Years 10 to 11 ◀◀◀ Ages 15 to 16
